OBJECTIVE

To obtain knowledge in the field of business and information technology and apply the knowledge into skills to grow my career and acquire relevant university diploma and degree.

EDUCATION

KCSE | Nakeel High School

FROM 2016 – TO 2019

Started high school in 2016 and finished in 2019 with a C- grade.

DIPLOMA | Jomo Kenyatta University of Agriculture and Technology

FROM 2021 – TO DATE

Enrolled for a Diploma in Business Information Technology in February 2021 expected to graduate in the current year

PROJECTS

SCHOOL | projects

Worked on an online doctor appointment booking system for my final year project as a training opportunity for the field.

PERSONAL | projects

I have worked on various personal portfolio websites to orient myself with different technologies like HTML, CSS, JAVASCRIPT and programming languages like PHP and PYTHON.

SKILLS

- Microsoft Office
- Collaboration
- Computer Literacy
- Frontend Development/design
- Management
- Communication

ACTIVITIES

I hope to gather relevant knowledge in the world of business and how to effectively communicate in it using information technology and provide my acquired knowledge back to the society in a skillful form. My ability to work collaboratively will help in acquiring knowledge and deliver expected results. Management skills acquired from my previous background of study will help in good project management.
